PROFESSIONAL SUMMARY

Four years of front-line clinical work as a Scribe, Patient Care Assistant, and ER Technician revealed where healthcare communication and coordination break down, especially around missed handoffs between shifts and teams. Now an MBA/MHA candidate pivoting to the business side of healthcare, using Claude to close those gaps, backed by years of mentoring and teaching that turned new ideas into things people understood.

CORE STRENGTHS

Building with Claude (Prototypes & Tools), Teaching & Explaining Clearly, Independent Project Work, Self-Directed Problem Solving, Healthcare Operations & Patient Care, Mentoring & Community Engagement, Cross-Team Communication, Data Analysis & Reporting, Adaptability in Fast-Changing Environments.

BUILT WITH CLAUDE

Rural Health Access Dashboard, Fleming Center Case Competition (2026): Cleaned a 257-county dataset down to three rural East Texas counties and built an interactive dashboard comparing each one to the Texas state average across ten health and access measures.

Coordination Tool, Independent Build (2026): Scoped, built, and shipped a working prototype end-to-end with the Claude API, including UI and prompt design, that turns raw meeting notes into a risk register, action items, and a plain-language status brief in a single pass.

Role Network Diagram, Graduate Presentation (2026): Built an interactive diagram mapping role dependencies inside an Amazon fulfillment center, turning an abstract org-behavior analysis into something people could explore live.

PROFESSIONAL EXPERIENCE

Viscosity North America

January 2026 - May 2026

Data Management Intern | Plano, TX

- Built Power BI and Claude-powered dashboards along with Excel reports to track operational metrics and support leadership decisions.
- Scoped and analyzed reporting workflows alongside internal teams and outside consultants, improving data accuracy by 10%.

Northwest Arkansas Pediatrics

July 2022 - January 2024

Medical Scribe | Fayetteville, AR

- Translated clinical documentation habits and EHR use into a clear handoff for a replacement scribe, lowering chart corrections at the end of the day by 25-30%.
- Kept providers on schedule despite high patient volume by building documentation templates from scratch that standardized note-taking.

Northwest Arkansas Pediatrics

October 2020 - July 2022

Patient Care Assistant | Fayetteville, AR

- Trained newly hired Patient Care Assistants on clinic workflow, lab testing, and juggling multiple tasks during high-volume days.
- Adapted quickly to unexpected issues mid-shift while logging and tracking 35+ medical tests per day.

Arkansas Children's Northwest Hospital

October 2019 - November 2020

Emergency Room Technician | Springdale, AR

- Delivered care for 60+ pediatric ED patients daily through the COVID-19 pandemic, seeing firsthand how missed handoffs disrupted patient care.
- Monitored vital signs independently every 2 hours and performed diagnostic tests while exercising sound judgment under pressure in a fast-changing environment.

COMMUNITY & MENTORSHIP

Dream BIG Mentor

J.O. Kelly Middle School - Springdale, AR

- Mentored a middle school student for a year through a program pairing university women with mentees, meeting monthly and texting weekly to build confidence through identity-focused sessions and advise on high school and college readiness.

Volunteer, Lifestyles Inc.

Fayetteville, AR

- Taught living-skills classes and assisted an art program for adults with disabilities twice weekly, rebuilding lessons around each student to keep them engaged after classes moved remote during COVID-19.

EDUCATION

Texas Woman's University, Dallas, TX

Expected August 2026

Master of Business Administration / Master of Healthcare Administration

University of Arkansas, Fayetteville, AR

Bachelor of Science, Kinesiology (Exercise Science)
